MACH2
BY KORS ENGINEERING

WHO WE ARE

Kors Engineering is a team of energetic computer nerds that are creating ground-breaking software products. Kors Engineering has been in business for over 40 years and operates out of Waterford, Michigan.

WHAT WE MAKE

Kors Engineering is the creator of Mach2; an integration software platform that interacts with shop floor machines and systems to provide usable, actionable information. Mach2 is a browser-based system with production scoreboards.

WHO OUR CUSTOMERS ARE

Our customers are manufacturing companies all over the globe that are embracing Industry 4.0 and Smart Manufacturing. Our customers make anything from automotive parts to food and beverage products. Our software can be found in over 200 locations and in13 different countries.

WHY WORK FOR US

With us, you will have the opportunity to work on real, valuable software projects that enhance your programming skills. No coffee runs or "busy-work." Our office is a laid-back environment and we are flexible with your school schedule! Email your resume to: Office@KorsEngineering.com
